We have specially crafted out various makeup courses for all makeup enthusiasts; individuals who wish to learn a skill or an art, professionals who aspire to be makeup artists and executives or students who want to take up an extra-curriculum activity.

The syllabus includes subjects commonly taught in make-up schools. Makeup courses are opened to residents in Singapore, tourists and overseas students, with no age limit.

In summary, these are the courses offered in Sophys-tique:

- 1) Basic Make-up Module – for beginners who want to learn the proper way of applying make-up
- 2) Bridal Make-up Module – for those who wish to undertake ROM, wedding assignments
- 3) Make-up Artist Proficiency Module – for those who want to be trained as a professional make-up artist

Our make-up trainers have years of experience in makeovers, fashion shows, pageant shows and needless to say have been in training and grooming make-up artists-to-be. We adopt a different methodology of teaching that is not just interactive but something interesting to the students, preparing and giving them opportunities to be exposed to this profession.

Testimonials by our Graduates / Students

Graduate, Imelda

Having a passion in make-up and after attending a skincare workshop held in Sophys-tique, I took up the advance make-up proficiency course. It was the course outline, impressive portfolio taken, events participated, reasonable fees and of course Director Gisella's professionalism that made me took up without much hesitation.

Lessons are conducted in small group whereby students get more attention. We are more focused and we get to practise on one another; thus mistakes can be corrected by instructor on the spot. This is a good and effective way to learn from mistakes and also to remember the techniques learnt.

Sophys-tique gives students the flexibility to come for practice during and even after the course has completed. We are given the chance to participate in events in which we can build-up our skill and speed. Thanks to Sophys-tique, I have completed my course and thanks for the opportunities given to be involved in events.

Currently, I am taking up advance hair styling course in Sophys-tique. Hope in the near future, I am able to be a good make-up artist cum hairstylist. Thanks again, Sophys-tique! Imelda – June 2008

Graduate, Siaw Ling

(1 of the 3 make-up artists who completed doing make-up in less than 2 hours for 8 girls and 10 guys for Show in Plaza Singapura, June 2007

Sophys-tique is the perfect place for me to get my formal education in make-up application and to gain knowledge of the beauty industry. Sophys-tique provided a comfortable and fun environment to attend the class. The small-sized class allows one to get a lot of attention in a relaxed and professional environment; it also enables you to develop your own unique style without getting lost

I am glad to be learning under a well-trained faculty which is always more than willing to share their skills and experience. I earnestly thank my instructors for their patience. The time frame was perfect and it gave me more than enough time to learn what we needed to know to become professional make-up artists. I can honestly say that the course was everything and more than I had hoped for. It enabled me to gain the confidence that was necessary to embark on my professional career as a

make-up artist.

Even after I have completed the course, Sophys-tique has continued to offer me guidance and support. The course provided at Sophys-tique is excellent. I will thoroughly recommend this course to anyone who is dreaming of working for themselves in the make-up industry.
